Cole-Parmer® Upright Freezer Drawer Racks for 100-Place Slide Boxes

•

COLE-PARMER

Drawers slide out independently for quick access and storage of boxes

- Accommodates slide boxes measuring up to 8 1/4"L x 7"W x 1 7/16"H
- Built-in label holder lets you conveniently identify each drawer content
- Easily access boxes from either side of rack
- Sturdy corrosion-resistant stainless steel construction for long-term use
Drawer racks facilitate access to samples without having to remove the entire rack from the freezer. Easily retrieve sample boxes by simply sliding out the individual rack drawer.

Cole-Parmer Upright Freezer Rack for Microtube Boxes with 1 1/2" Max Height, 6 x 6 Array

Cole-Parmer – Item # EW-04405-66

Ships by January 05

Monitor Your Critical Environments with a Data Logger

Traceable Calibrated Wi-Fi Data Logging Refrigerator/Freezer Thermometer Compatible with TraceableLIVE® Cloud Service; 2 Bullet Probes

Specifications & Description

- Width (in) 5 7/16
- Height (in) 9 5/8
- Length (in) 21 1/4
- Width (cm) 13.8
- Height (cm) 24.5
- Length (cm) 54
- Capacity 6 x 6 Array

MORE ABOUT THIS ITEM

Racks feature handles at both ends to accommodate freezers with right- or left-handed doors.

Cole-Parmer® Upright Freezer Drawer Racks for Microtube Boxes with 1 1/2" Max Height

Drawers slide out independently for quick access and storage of boxes

- Easily access boxes from either side of rack
- Sturdy corrosion-resistant stainless steel construction for long-term use
Drawer racks facilitate access to samples without having to remove the entire rack from the freezer. Easily retrieve sample boxes by simply sliding out the individual rack drawer.

item	Capacity	Height (in)	Length (in)

 EW-04401-88	2 Drawers, holds (324) 1 mL Tubes	6 1/16	22

Cole-Parmer® Upright Freezer Racks for 100-Cell Hinged Top Plastic Boxes

Drawers slide out independently for quick access and storage of boxes

- Conveniently store 100-cell hinged top plastic boxes measuring up to 6 1/8"L x 5 3/4"W x 2 1/4"H
- Sturdy corrosion-resistant stainless steel construction for long-term use
- Designed to fit all major brands of -80°C ultralow upright and chest freezers
Racks feature handles at both ends to accommodate freezers with right- or left-handed doors. Drawer racks facilitate access to samples without having to remove the entire rack from the freezer. A wide range is available to accommodate your standard 2" and 3" storage boxes, 96- and 384-well microtiter plates, and 15- and 50-mL centrifuge tubes.

item	Capacity	Height (in)	Length (in)
 EW-04403-43	4 x 5 Array	12 1/8	22 7/8

Cole-Parmer® Mini-Coolers

Keeps temperature-sensitive samples cool during testing

- Non-slip rubber feet
 - Gridded and keyed lids provide sample identification
- These mini-coolers protect temperature-sensitive samples at the work bench or in the freezer. The polycarbonate constructed coolers are ideal for keeping PCR reagents, enzymes, and other biochemical reagents cool while working at the bench.

Cole-Parmer® PolarSafe® Cooling Packs and Accessories

Transport your critical samples without worry

- Maintain specific temperature ranges for extended periods of time for improved sample protection
- Get the temperature protection you need with choice of durable transport bags or boxes
- Modular, color-coded cooling packs allow flexible configurations for different-sized samples
- Ensure sample integrity with optional security sealing ties

Cooling end-caps, cooling frames, and cooling blocks can be purchased individually or as part of a kit pairing nicely with selected bag or box to provide maximum protection. Use the cooling end-caps and cooling frames together to encapsulate the entire sample. This modular system can accommodate various sample sizes to provide a complete thermal barrier. Cooling packs come in standard 4°C (color coded blue) and 22°C (color coded green). Temperature ranges are 2 to 8°C and 20 to 24°C respectively; these ranges can be maintained up to 15 hours.

Cooling end-caps and cooling blocks include a temperature indicator label.

Cole-Parmer® Upright Freezer Drawer Racks for Standard 3.75" High Boxes

Drawers slide out independently for easy access to the boxes

- Use with standard 3.75" high polycarbonate boxes
- Sturdy corrosion-resistant stainless steel construction for long-term use
- Racks feature handles at both ends to accommodate freezers with right- or left-handed doors. Drawer racks facilitate access to samples without having to remove the entire rack from the freezer. Easily retrieve sample boxes by simply sliding out the individual rack drawer and then sliding the boxes out from either side of the rack.

Cole-Parmer® Benchtop Reversible Cooler Racks

Ensures consistent thermal protection of samples

- Clear lid for easy sample identification
 - Constructed of impact-resistant polycarbonate
 - Filled with a non-toxic self-insulating gel
- Reversible polycarbonate cooler racks feature one side designed to hold 1.5- or 2-mL tubes while the other side holds 0.5 mL tubes. The 4 x 5 grid keeps up to 20 tubes upright and secure. Racks are filled with an inert, non-toxic gel to help maintain a consistent temperature. Translucent lid cover allows you to easily view and identify samples without removal.

-

Cole-Parmer® PolarSafe® Polycarbonate Storage Boxes

- COLE-PARMER

Designed to withstand temperatures from -320.8 to 250°F (-196 to 121°C)

- Clear lids with locator grids simplify sample identification

- Keyed lid prevents misalignment of grid

Polycarbonate freezer boxes, available with 25, 81, and 100-place divisions, feature bottom drain holes for safe venting. The 25- and 81-place boxes have individual cell compartment dividers, while the 100-place box holds tubes in a pegged grid divider.

Cole-Parmer® Upright Freezer Bin Racks

Drawers slide out independently for quick access to miscellaneous lab items

- Open format works well with -20°C freezers or larger walk-in freezers
Available in a wide variety of sizes, the PolarSafe® stainless steel bin storage racks are designed to store miscellaneous items such as bottles, tubes, vials, bags or boxes that will not fit in a standard storage rack. The racks feature wire mesh sides for easy viewing of contents and dual handles for carrying. They are available in fixed or drawer rack styles which are fully framed.

Cole-Parmer® PolarSafe® Aluminum CryoCanes Cryogenic Storage Canes

- **COLE-PARMER**

Offer convenient storage and retrieval of vials in cryogenic storage dewars

- Constructed of durable yet light-weight aluminum
 - Designed to hold 5 cryogenic vials per cane
- These aluminum storage canes are designed to store cryogenic vials in Dewars or liquid nitrogen tanks. These canes will accommodate most cryogenic vials in 1.0-, 1.2-, 1.5-, 1.8-, and 2.0-mL sizes. The cane without vial platform can also accommodate 5.0 mL vials. Choose from two styles, without or without vial platforms. Each can accommodate 5 vials.
- The clear plastic sleeve keeps your vials in place while being stored on the cane.

Cole-Parmer® Low-Temperature PCR Racks

Safely store PCR samples down to -80 °C

- Uniquely designed lid also works as an elevated rack base
- Easily stack racks to save benchtop and freezer space
- Alphanumeric identification provides fast location and retrieval of tubes
- Each rack holds 96 x 0.2 mL tubes

Securely store 0.2 mL PCR tubes in these durable ABS plastic low-temperature racks. Racks feature textured finger grips for easier handling and transportation. Alphanumeric identification offers fast sample and well identification. Simply flip the translucent polycarbonate lid to use it as an elevated rack base. Side openings on the lids provide faster cooling ensuring the integrity of the samples.

Cole-Parmer® Metal Freezer Boxes

- COLE-PARMER
Safely store samples in a liquid nitrogen vapor environment
- Choose from stainless steel or aluminum
These metal freezer boxes are guaranteed not to rust and feature drain holes making them ideal for storing samples in most liquid nitrogen tanks offered on the market. Available in stainless steel or aluminum, the boxes can be stored in the same rack configurations as the 2" and 3" cardboard boxes. Cardboard dividers can be added depending on the application.

Cole-Parmer® PolarSafe® Metal Tags for Aluminum CryoCanes

COLE-PARMER

Easily identify cryogenic storage canes

- Ideal for sample identification of PolarSafe CryoCanes
 - Constructed of durable metal
 - Easily clip onto the end of your cryocane for a secure fit
- Unique, colorful tabs keep track of your inventory of CryoCanes. Identify a particular batch of vials or a specific technician's work. Coder tabs remain firmly in place during storage in liquid-nitrogen freezers.

Cole-Parmer® Cardboard Cryogenic Storage Boxes and Dividers

- COLE-PARMER
Create customized storage box configurations

- Snug-fitting lid prevents accidental separation if dropped
 - Use in mechanical freezers or liquid nitrogen tanks to -196°C
 - Constructed of sturdy cardboard with moisture-repellent coating
 - Designed with small holes on the bottom to allow for drainage
- These economical cryo/freezer storage boxes offer excellent low-temperature storage. Moisture-repellent coating protects boxes from effects of liquid nitrogen or condensation.

Choose from a wide range of boxes and dividers to accommodate tubes from 0.5 to 50 mL. Boxes can be ordered with dividers for a complete box configuration or without dividers to customize your storage needs. The wide range of dividers can hold from 16 to 196 tubes with diameters from 8 to 33.5 mm.

Order additional and replacement cell dividers separately.

Cole-Parmer® Polypropylene 15 and 50 mL Vial Storage Boxes

• **COLE-PARMER**

Accommodate 15- or 50-mL centrifuge tubes for long-term storage

- Store down to -90°C (-130°F) or autoclave up to 122°C (252°F) —wide temperature range
 - Inspect, reference, and identify samples through the clear lid and easy-to-read numeric grid
 - Label or mark boxes on the white top portion
 - Compatible with most 4" stainless steel freezer racks
- These cryogenic storage boxes offer excellent low-temperature storage. Polypropylene boxes have clear lids with colored inserts and numbered grids to facilitate easy sample identification.

Cole-Parmer® Security Lock Devices for Chest Freezer and Liquid Nitrogen Racks

Protect your samples from unauthorized access

- No tools required for installing lock devices
 - Constructed of durable stainless steel
- Security lock devices for chest freezer and liquid nitrogen tank racks are made of high quality stainless steel and secured with a lock included with each system. Select your lock device by identifying your specific chest freezer or liquid nitrogen tank rack and then the security lock device for your particular freezer rack.

Cole-Parmer® Vertical/Chest Freezer Racks for Mini 2" Boxes

• COLE-PARMER

Easily place and retrieve from chest freezers and liquid nitrogen tanks using stainless steel dual handles

- Accommodates mini 2" cardboard or plastic boxes
 - Locking rod securely holds boxes in place
 - Sturdy corrosion-resistant stainless steel construction for long-term use
- Racks feature sturdy handles for easy access to your samples in vertical/chest freezers.

Cole-Parmer® 81-Place Polypropylene Storage Boxes

Reinforced hinges, lock, and seal for secure storage

- Bold, black alpha-numeric printing allows accurate tracking of samples
- Click fit lock ensures box will not open accidentally—even if placed upside-down
- Large clasp allows easy opening with gloves
- Fit in most 2" freezer racks

Boxes withstand temperatures from -80°C to 121°C, and will not degrade with repeated thaws. Each box features an alphanumeric grid on the exterior and interior, stacking rings, and a matte surface suitable for markers or labels. Box top is clear for easy visual inspection of samples and bottoms are colored for additional identification and organization. Boxes accommodate 0.5, 1.5, and 2.0 mL microtubes, and most brands of cryogenic vials.

Cole-Parmer® PCR Coolers

Cools faster and stays cold longer on benchtop

- Maintains entire 96-Well plate at 0 °C for over an hour
- Save space with compact footprint and stacking ability
- Lid design provides secure storage and safe transport
- Vented lid enables faster cooling of samples in the freezer
- Ergonomic textured finger grips provide a secure hold,
The PCR cooler racks provide ice-free cooling of most standard and low profile 96-well plates, 0.2 and 0.5 mL PCR tubes, strips and single formats. It prohibits the freezing of samples. The racks can maintain a temperature of 0 °C for over an hour for an entire 96-well plate. With the lid removed, the racks can keep sample temperature of less than 5 °C for up to three hours.

When the temperature ceiling of 6 °C has been exceeded, the cooler will display a contrasting color change. This provides you with a visual indication then your samples need to be returned to the freezer.

Patented lid design provides secure storage and transport of PCR samples from freezer to benchtop. For your convenience, the lid easily slides out, can rotate 180°, and becomes a convenient stand for the cooler to sit on. The detachable polycarbonate lid is ambidextrous to allow left or right-hand orientation.

Alphanumeric well identification offers quick location and retrieval of tubes. Available in three color schemes.

item	Color	Tubes Held	Tube Size

 EW-44002-27	Pink/Purple & Light Blue/Dark Blue	96	0.2, 0.5 mL & 96-well

Cole-Parmer® Benchtop Cooler Color-Changing Racks

Color changes to indicate temperature of samples

- Maintains sample temperature of less than 4 °C (39.2 °F) for up to 4 hours
- Clear lid for easy sample identification
- Constructed of rugged polypropylene
- Filled with an inert gel

Benchtop cooler color-changing racks change from green to yellow as temperature rises to 7 °C (44.6 °F) . This provides you a visual indication when your samples need to be returned to the freezer. These racks will hold 4 °C (39.2 °F) temperature for up to 4 hours on the bench. Clear lid cover allows you to easily view and identify samples without removal.

Available in two rack sizes.

item	Lowest Set Temperature (° C)	Tubes Held	Tube Size
 EW-44001-58	4	24	0.5, 1.5, 2 mL

item	Lowest Set Temperature (° C)	Tubes Held	Tube Size
 EW-44001-59	4	96	0.1, 0.2 mL

Cole-Parmer® PolarSafe® Polycarbonate Storage Boxes

Designed to withstand temperatures from -320.8 to 250°F (-196 to 121°C)

- Clear lids with locator grids simplify sample identification
- Keyed lid prevents misalignment of grid

Polycarbonate freezer boxes, available with 25, 81, and 100-place divisions, feature bottom drain holes for safe venting. The 25- and 81-place boxes have individual cell compartment dividers, while the 100-place box holds tubes in a pegged grid divider

Cole-Parmer® Benchtop Reversible Cooler Racks

Ensures consistent thermal protection of samples

- Clear lid for easy sample identification
- Constructed of impact-resistant polycarbonate
- Filled with a non-toxic self-insulating gel

Reversible polycarbonate cooler racks feature one side designed to hold 1.5- or 2-mL tubes while the other side holds 0.5 mL tubes. The 4 x 5 grid keeps up to 20 tubes upright and secure. Racks are filled with an inert, non-toxic gel to help maintain a consistent temperature. Translucent lid cover allows you to easily view and identify samples without removal.
